Hello Jeffrey,

I hope you are staying safe in these wild times. I wanted to give you a quick update on Paxton/Bradley since the housing and cleanup efforts back in April.

Thank you for connecting me with Saghafi to assist with working something out for the No Trespassing signage. He was able to get us the design standards for our print shop to produce them, and they should be ready for installation soon. I'll continue working with Saghafi to make sure his team stays in the loop for that process so it is completed smoothly.

We are also working with our Sanitation Department on placing boulders behind the fence as a temporary beautification project. Post public health crisis, we would like to explore opportunities for a landscaping and/or art project in space. For the time being, the boulders will be helpful for our maintenance work and keep the space from looking so barren.

I appreciate our partnership and continued communication.

Stay well,
Paola
